

Architects Named to Design New Harbor College Expansion Work

Architects to prepare working drawings for the \$2,788,000 Phase 3 construction project at Los Angeles Harbor College were named this week by the Los Angeles City School System.

Superintendent of Schools Ellis A. Jarvis announced A.C. Zimmerman and F.D. Howell will handle the design work for the multi-million-dollar project and will have seven months to complete their work.

Main projects in the third phase for the school are classroom facilities for the life

science, business, and administration departments, a student center, planetarium, service building, and extensive site grading.

The Harbor College site at 1111 Figueroa Place, Wilmington, covers 85 acres and when the college is completed, Jarvis stated, it will have modern, efficient facilities for training 3500 full-time day students in technical fields, business education, natural sciences and social sciences.

The completed project will contain 73 teaching stations, 80 per cent of which will be in permanent buildings, and 20 per cent in portable buildings.

Phase 3 of the project includes 36 teaching stations in permanent facilities.

Los Angeles Harbor College opened in 1949. In Phase 1 school assembly and physical education facilities were constructed and in Phase 2 four physics laboratories and four portable classrooms for art and general classroom use were built.

ECC Chemistry Instructor Gets Fourth Award

John Dulin, chemistry instructor at El Camino College since the opening of the school, will attend Oregon State College this summer following receipt of his fourth appointment to a National Science Foundation sponsored summer program for college teachers of chemistry.

Dulin will attend the summer institute at Corvallis, Oregon from June 26 to August 4. At Oregon State, Dulin will have the opportunity to study the development of instrumental methods in analytical chemistry, recent developments in inorganic chemistry, and recent advances in organic chemistry during the summer program.

Faculty Members At El Camino In Program

June Lusk, concert pianist and member of the music faculty of El Camino College, will perform as guest soloist with the Inglewood Symphony Orchestra, Saturday, April 22, in the Campus Center.

Program for Miss Lusk's performance will be the Mozart "Coronation" Concerto; the Puccini Suite by Stravinsky and the world premiere of W. Grant Still's "Patterns," which is dedicated to Ernst Gebert and the Inglewood Symphony.

Both the Inglewood Symphony, which is in its twelfth season, and Miss Lusk, who with this performance presents to El Camino audiences her fifth annual spring piano recital, have received critical recognition in the musical world.

In 1954-55, Miss Lusk was awarded a Fulbright scholarship to attend the Conservatory of Music in Cologne. Prior to this she had completed work for her Master's degree at the University of Southern California.

The Inglewood Symphony, under the direction of founder Ernst Gebert, has been described by NEWSWEEK magazine as "Inglewood's greatest cultural asset." The orchestra has had the distinction of being heard by national audiences over the NBC radio network.

Tickets for the performance may be purchased at the campus bookstore. Price to the public is \$1. Program time is 8:30 p.m.

Chapel Resolution on Electoral College Passed, Sent to Congress

By CHARLES E. CHAPEL, Assemblyman, 46th District

On Jan. 3, I introduced my Assembly Joint Resolution No. 3, pertaining to the Electoral College. It passed the Assembly, was amended in the Senate, and on April 4, the Assembly voted to accept the Senate Amendments and sent the Resolution to the President of the United States, the President pro Tempore of the Senate, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

The amended Resolution reads as follows:

"WHEREAS, In proportion to their populations, the small states are overrepresented in the Electoral College by reason of their two Senatorial votes and in the Congress of the United States, by reason of the equal voting power of each state in this matter; and

"WHEREAS, In proportion to their actual popular vote, the light-voting states are overrepresented in the Electoral College and the Congress of the United States, when voting on this matter; and

"WHEREAS, Because of the unit rule method of voting in the Electoral College attention is concentrated in the campaigns for these high offices upon the largest states either to the practical exclusion of the remainder of the states or to their considerable disadvantage; and

"WHEREAS, The representation of large states, such as California, in the Electoral College is changed only once every 10 years and the elections for these high offices occur every four years; and

"WHEREAS, The selection among the candidates for these high offices is accomplished in both the Electoral College and the Congress of the United States not on the basis of who receives the most popular votes for these high offices but rather where and in what states they receive their votes; and

"WHEREAS, Each vote of voters voting throughout the nation, from California to Maine, should be equal in arithmetical value, except when voting for the members of bicameral legislative bodies, local, state and national; and

"WHEREAS, This system of election is inconsistent with the federal system in that it violates the direct relationship existing between the citizens of the United States and the federal government; and

"WHEREAS, In the years 1824, 1876 and 1888 candidates were chosen for the highest office in the land who did not obtain a plurality of the popular vote; and

"WHEREAS, By means of a constitutional amendment, even the United States Senate has been elected by direct popular vote for over one-half century; and

"WHEREAS, Election by direct popular vote is the rule rather than the exception throughout the United States in local, state and other federal elections; and

"WHEREAS, Essentially equal voting rights among citizens

of this nation is the essence of the democratic process and is one of the cardinal equal rights the people of this nation value so clearly; now, therefore, be it

"RESOLVED, by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to adopt an amendment to the Constitution of the United States either to substantially reform or to abolish the Electoral College and the congressional system of election of the President and Vice President, and to provide in lieu thereof either for their direct popular election or some other method that will insure essentially equal voting rights among citizens of the nation; and be it further

RESOLVED, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the President of the United States, to the President pro Tempore of the Senate, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States."

Expansion Plan Given Approval

Preliminary drawings for additional facilities and alterations to the main building at Lomita Elementary School, 2211 W. 247th St., were approved this week by the City Board of Education, it was announced today by Superintendent of Schools Ellis A. Jarvis.

The firm of Orr, Strange, Inslee and Senefeld are now beginning working on final drawing specifications for the \$265,000 construction program, Jarvis stated.

Additional facilities to be added to the school in this project include six permanent classrooms and four permanent kindergarten rooms, a kiln room, storage facilities, and ground improvements and landscaping.

Remodeling projects scheduled at the school include altering their existing room for library use, changing office facilities and installing a public address system according to new school system standards.

HE WILL also participate in a seminar designed primarily to discuss the problems associated with teaching chemistry, with particular emphasis on the more recent techniques developed for teaching general chemistry.

This is the second consecutive year in which a member of the El Camino College faculty has been selected to participate in the Oregon State College summer program. Warren Ford, also a chemistry instructor, was a participant in 1960.

DULIN WAS invited to participate in the Montana State College Summer Institute for high school and college chemistry teachers in 1957, the Fort Lewis A and M Summer Institute on statistical mechanics in 1959, and the Tufts University summer conference on chemical bonding in 1960.

Dulin commenced his teaching at El Camino College in 1946, when the college offered classes at three of the local high schools. He came to the college after several years as a member of the Burbank High School faculty.

PRIOR TO that he taught at Santa Monica City College. Mr. Dulin is a graduate of William Jewell College and received his Masters degree from the University of Washington. In addition, he has completed graduate studies at the University of Southern California, Stanford University, and Ohio State University.

In addition to Dulin's duties as a member of the chemistry faculty, he serves as a counselor for chemistry, pre-medical, pre-dental, pre-veterinary, pre-forestry and pre-optometry students.

Italian Art Exhibit Due For Opening

The first complete showing in the United States of Italian artist Alfio Rapisardi will be presented by Great Western Savings and Loan Assn., Monday through April 28 in the lobby of the financial institution's executive offices at Crenshaw and Vernon.

The one man show will feature 29 of Rapisardi's paintings. Many will be the same works which received acclaim at the recent "Florino" exhibit in Florence.

Great Western is sponsoring the show in connection with the tribute now being paid by the city of Los Angeles to Italy in honor of the Italian Centennial.

Program for Miss Lusk's performance will be the Mozart "Coronation" Concerto; the Puccini Suite by Stravinsky and the world premiere of W. Grant Still's "Patterns," which is dedicated to Ernst Gebert and the Inglewood Symphony.

Both the Inglewood Symphony, which is in its twelfth season, and Miss Lusk, who with this performance presents to El Camino audiences her fifth annual spring piano recital, have received critical recognition in the musical world.

In 1954-55, Miss Lusk was awarded a Fulbright scholarship to attend the Conservatory of Music in Cologne. Prior to this she had completed work for her Master's degree at the University of Southern California.

The Inglewood Symphony, under the direction of founder Ernst Gebert, has been described by NEWSWEEK magazine as "Inglewood's greatest cultural asset." The orchestra has had the distinction of being heard by national audiences over the NBC radio network.

Tickets for the performance may be purchased at the campus bookstore. Price to the public is \$1. Program time is 8:30 p.m.

Marine Pfc. Ralph Vargas, son of Mr. and Mrs. Manuel Vargas of 20521 S. Vermont, is serving with the security section of the Marine Barracks at Bremerton, Wash. He was recently promoted to his present rank.

Before enlisting in June 1960, Vargas attended Banning High School at Wilmington, Calif.

Stamp Auction Well Received

The stamp auction is getting to be a popular event at meetings of the Torrance Stamp Club, as was demonstrated recently when 40 lots of British Colonies stamps were snapped up by members in record time.

An open auction of general foreign stamps has been scheduled for the next meeting of the group Monday evening, April 24, at 7:30 at Scott Park Community Building, 23410 S. Catskill Ave., Wilmington.

School Board Candidate

"THE BALL OF FIRE"
NAT MONDATI
"THE LITTLE LEAGUER"

HE FEELS . . .

there is no decision more important to the voters than the selection of our school board members. As a Torrance citizen for 17 years, a taxpayer and father of one child, I urge you to use great care in your school board selections on April 18th.

The destiny of our country depends on the proper shaping of youngsters' minds today. And there is nothing as great or important as the field of education.

I sincerely ask your voting support on April 18th and urge your help in making Torrance schools the best in the country.
